

The following results were recorded from the UIL archives in Austin Texas. Unfortunately, results from 1944 to 1947 could not be found, and scores for the different contests were sporadic at best, and more often than not completely missing.

Thanks to Bobby Hawthorne, the Academic Director, for his help in compiling this record.

This page contains the results from the classic era (pre-1980), prior to the inception of the Calculator Applications contest.
